

CORE VALUES FEEDBACK

The City of Bayfield is in the process of updating its Comprehensive Plan. The 2001 Plan included a list of Core Values (on page 6) that will be revised to reflect plans and activities in the past 15 years that further clarify and strengthen its commitments, e.g. adopting a Sustainability Plan and participating in the state's Legacy Communities Program that is currently providing 5 years of grant support to Bayfield and other member cities to incorporate health and equity principles in their policies.

As a community leader, your feedback would be much appreciated. Please take ten minutes to complete this worksheet. Several things to keep in mind as you do:

1. Definitions are provided for terms that have been or will be defined in the Comp Plans (2001 and 2018) themselves. In other cases, we're interested in knowing how you define a term in the context of a community planning exercise. If a term is unclear to you, please note that, too.
2. Do you think some of these "core values" be combined?
For example, a number of these values (marked **) reflect basic human needs. Could some of them be combined into a more general human-centered value like "individual or personal fulfillment"?
3. Are there additional "core values" you think should be considered?
If so, please describe them, and how you define them.

Balance e.g. private & individual rights with nature & the public good
